

Your client needs data work. We help you deliver it.

Northgrain joins a defined workstream, helps shape the scope, or works inside your team.

You keep the client relationship. We handle the engineering.

01 / WHEN TO BRING US IN

A useful fit when

- The client needs data engineering outside your usual scope.
- A defined workstream needs an experienced owner.
- You need discovery or a credible estimate before signing.

02 / WAYS TO WORK TOGETHER

A delivery model that fits

- White-label delivery inside your process.
- Named subcontractor with a clear technical role.
- Joint discovery and implementation.

DATA ENGINEERING SPRINT

From EUR 4,000

3-6 weeks · one agreed scope

One defined outcome implemented, validated, and handed over.

LONGER EMBEDDED CONTRACTS

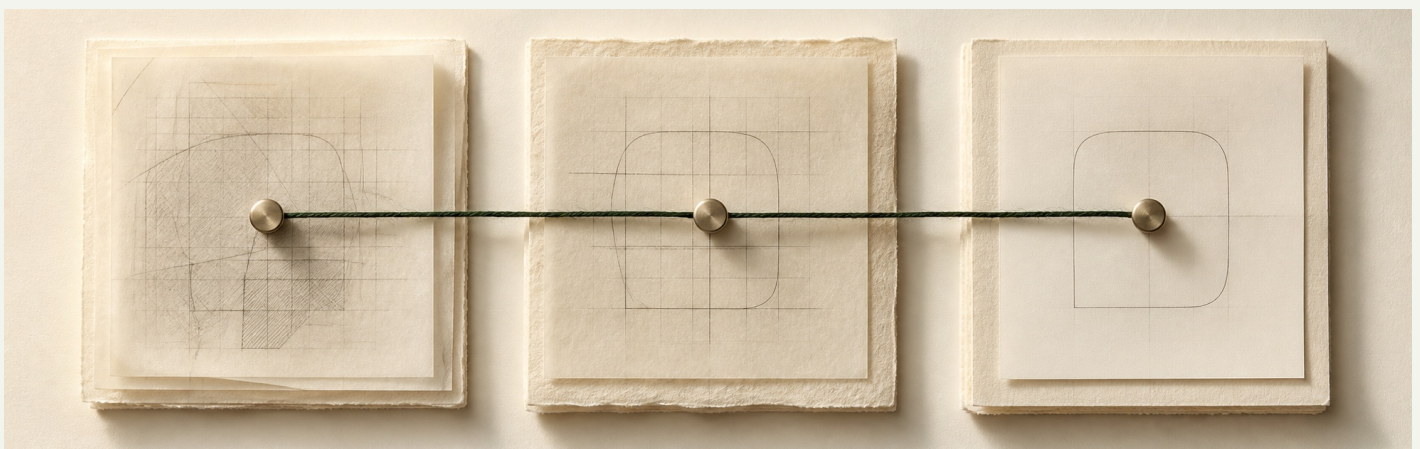

From EUR 45/hour

Typically 3+ months · recurring capacity

Steady delivery inside your client workflow, backlog, and cadence.

03 / HOW DELIVERY MOVES

Align. Deliver. Hand over.

01 Align on the work

02 Deliver and validate

03 Document and hand over

Have a client project in view?

Send the situation and desired outcome. We will help shape the delivery model.
